

Doodle Art 2 - Guinea Days Art Studio: A Compendium of Colour and Creativity

Following on from the first Doodle Art book, this next version is an even bigger compendium of creativity and colour, based around the authors admiration and respect for all things guinea related. This book is bursting with pages of illustrations for the reader to colour, including a guinea pig themed section devoted to Fairy Tales and rhymes. Once again space has been left for each reader to add their own style, additions and doodles. The book is again divided into a variety of themed sections. The reverse side of each illustration has been left blank so that the reader can either, carefully remove and frame their finished artwork, or, they can use the creative spaces throughout the book to doodle and design for themselves. There are also a number of mazes, copy the picture and a reprint of just a few of the first books more popular pages and all guinea pig based of course. This book is aimed for everyone who has a love of colour, creativity and above all, an interest in all things guinea pig related.
