

Fishing and Travel in Spain (Classic Reprint)

There are more ways than one of seeing a fresh country. One may make a lightning tour through some of the chief towns, race through the picture galleries, and glance at the buildings of interest. The traveller does not learn very much of the country and the people by flying along the beaten track and staying in conventional tourist hotels. When I wander, at home or abroad, I choose for preference a cross-country line. The hills, the rivers, and the forests, appeal to me quite as powerfully as the cities, cathedrals, and works made by hands. With the rustic person everywhere I have a sympathy. I love the open air and those who dwell where there is calm and breathing-space. (Typographical errors above are due to OCR software and do not occur in the book.)
