

Realizing our Vision: Report of the Regional Director on the Work of WHO in the European Region in 2012-2013

In 2010, the WHO Regional Committee for Europe adopted an ambitious five-year vision of better health in the WHO European Region. The WHO Regional Office for Europe and the 53 countries it serves therefore agreed to follow a roadmap with specific milestones, to enable the Regional Office to respond to the changing European environment and to further strengthen it as an evidence-based center of health policy and public health excellence that could better support the Regions diverse Member States. The work and achievements over the last four years required great effort, commitment and cooperation from all parties.
